My First LaTeX Document

Your Name

November 12, 2026

1 Introduction

LaTeX is a document preparation system used for academic and technical writing.

2 Text Formatting

This is normal text.
This is bold text.
This is italic text.
This is blue text.

3 Lists

3.1 Unordered List

- Mathematics
- Physics
- Computer Science

3.2 Ordered List

1. Learn LaTeX basics.
2. Practise mathematical equations.
3. Create a document.

4 Mathematical Expressions

Inline equation: $x^2 + y^2 = z^2$
A fraction:

$$\frac{a+b}{c}$$

A square root:

$$\sqrt{x^2 + y^2}$$

A summation:

$$\sum_{i=1}^{n} i$$

5 Matrices

$$A = \begin{bmatrix} 1 & 2 \\ 3 & 4 \end{bmatrix}$$

6 Tables

Name	Subject	Marks
Asha	Maths	90
Ravi	Science	85
Neha	Physics	95

7 Conclusion

LaTeX makes it easy to create well-structured technical documents. It supports text formatting, equations, lists, matrices, and tables.
